SUMMARY

A Software engineer worked on different academic projects for one year and aspired and committed to use acquired skills to solve problems, enhancing the development through data driven decision-making.

EDUCATIONAL BACKGROUND

Bachelor of Science in Information Technology   September 2019 – March 2023
Adventist University of Central Africa
Major in Software Engineering

EXTRACURRICULAR ACTIVITIES

● I did SPSS level 1 training from Adventist University of Central Africa.   January – March 2022

SKILLS

- Networking
- C programming
- Java Programming (Spring, Hibernate, JSF Frameworks)
- Communication skills
- Software Engineering
- Machine learning with python

- Databases(postgreSQL, mySQL, oracle,mongoDb,neo4j)
- Python for Data Science, Django framework
- JavaScript(Node.js)
- React js
- Data analysis with python

Certifications

- Reactive Architecture: Domain Driven Design
- Reactive Architecture: Reactive Microservices
- Reactive Architecture: Building Scalable Systems

INTEREST AND HOBBIES

- Listening to music and reading religious books
- I like news and being updated
- Sports (athletics and swimming)
